What is this product?

Type
The SICAV is a Luxembourg Investment company subject to the provisions of Part I of the Law of 17 December 2010, relating to undertakings for collective investment in transferable securities (UCITS).

Term
There is no maturity date. The SICAV has been established for an unlimited period of time. Natam may terminate the SICAV and the Sub-Funds early, following the procedures described in §23 and §24 of the Prospectus.

Objectives
Investment objective The aim of the Sub-Fund is to achieve a highly diversified exposure to corporate bonds in order to obtain the best possible risk-return combination also taking into account the need to promote environmental social and governance characteristics on the investments (ESG factors), mitigating the relevant sustainability risk.

Investment policies The Sub-Fund invests in debt securities, mainly investment grade corporate bonds, denominated in Euro.
The selection of the debt securities will pay particular attention to the fundamental data and to the credit-worthiness of the issuer, as well as to the liquidity of the issues. A potential investment in non-investment grade, with minimum rating B-, and not-rated investments is allowed, with adequate diversification and with a limit of 20% of the net asset value, in aggregate. Up to 20% of the assets may be invested in convertible bonds and CoCco bonds, in aggregate. Investment in CoCo bonds cannot exceed 10% of the net assets.
The Sub-Fund may invest in credit derivative instruments, (i.e. Credit Default Swaps, Credit Spread Derivatives that allow two parties to exchange the credit risks specific to some issuers) in order to hedge the specific credit risk for some issuers within the portfolio. The expected leverage, calculated through the commitment approach, is therefore maintained at zero, with the exception of the derivative component of the convertible bonds. The expected leverage (calculated as a sum of notionals) is not expected to exceed 100%. Exposure to interest rate risk is constantly maintained at a duration level between 1.5 and 4.5; derivatives cannot be used for investment purposes and leverage is not allowed either.

The "ESG features", according to art.8 of EU Regulation 2019/2088, are implemented through a two-level approach:

1. an average portfolio ESG rating, determined as described in the Paragraph Disclosure on "ESG integration" practices of the Prospectus, which will be equal or over the quarterly weighted average ESG rating of a specific index indicated in the Appendix of the Sub-Fund

2. a set of specific restrictions and investment limits identified to promote sustainable investments.

Benchmark 95% B-Barclays Euro Corp TR 1-5 Y (LEC4TREU) + 5% €STR: BCE euro short-term rate index (ESTCINDX Index)

Benchmark uses Discretion is allowed with respect to the benchmark. The Investment manager may invest in financial instruments not included in the benchmark in order to take advantage of specific investment opportunities. This active management approach involves a deviation from the reference index which can be significant.
The Sub-Fund is not intended to track the benchmark

Redemption and Dealing Investors may redeem their shares on any business day for Luxembourg banks. They can also switch some or all their shares in those of another Sub-Fund and/or Class (with the exception of Class "L") within the SICAV without paying any extra fee.

Distribution Policy All income is, normally, reinvested.

Intended retail investor
This share class is intended for investors with a medium-term investment horizon, with a basic knowledge of the product, who can bear losses and having preference for products complying with the ESG factors.

Practical information
Depositary The SICAV depositary is State Street Bank International GmbH, Luxembourg branch.

Further information A copy of the Prospectus, the latest annual and semiannual financial report of New Millennium are available free of charge in English and Italian on the websites www.natam.lu, www.newmillenniumsicav.com and at the registered office of the Fund (17, Boulevard de Kockelscheuer, L-1821 Luxembourg). Also the latest Net Asset Value per share are published on www.natam.lu and www.newmillenniumsicav.com
The information contained in this document is specific to Large Europe Corporate. However, the Prospectus, annual and half-yearly reports are prepared for the SICAV as a whole.
The SICAV consists of separate Sub-Funds with segregated liabilities. This means that the assets of a Sub-Fund will not be available to meet the claims of a creditor made against another Sub-Fund.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This means that potential losses due to the future performance of the product are rated a low level and that adverse market conditions are very unlikely to affect the sub-fund's ability to return the initial capital.

This product does not include any protection from future market performance so you could lose part or all your investment. The significant risks not detected by the synthetic indicator, are detailed in the "Main risk factors" section of the relevant Sub-Fund Appendix of the Prospectus.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between September 2019 and September 2023.

Moderate: this type of scenario occurred for an investment between April 2021 and April 2025.

Favourable: this type of scenario occurred for an investment between June 2022 and June 2026.

What happens if NATAM Management Company S.A. is unable to pay out?

In the event of Natam's insolvency, the assets of the SICAV will not be affected. The assets of the SICAV are held in safekeeping by the Depositary, that is required by law to segregate its own assets from the assets of the Sicav.

If the fund is not able to pay you out what is due, you may lose your entire investment. Losses are not covered by an investor's compensation or guaranteed scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 4 years (recommended holding period)
Total Costs	**441 EUR**	**864 EUR**
Annual cost impact*	**4.4%**	**2.2% each year**

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.8% before costs and -1.4% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	**3.00%** The entry charges are the maximum figures that might be taken out of your money before it is invested. In some cases you might pay less. You can obtain the actual charges from your financial adviser or distributor.	**Up to 300 EUR**
Exit costs	**0.00%**, we do not charge an exit fee for this product, but the person selling you the product may do so.	**0 EUR**
Ongoing costs taken each year		**Annual cost impact if you exit after 1 year**
Management fees and other administrative or operating costs	**1.20%** This is an estimate based on actual costs borne by the Sub-Fund over the last year. It does not include performance fees.	**120 EUR**
Transaction costs	**0.21%** This is an estimate of the costs incurred when we buy and sell the underlying investments for the product.	**21 EUR**
Incidental costs taken under specific conditions		**Annual cost impact if you exit after 1 year**
Performance fees	**0.00%** The performance fee rate is 20% of the positive returns the Sub-Fund achieves, if above HWM, over the benchmark in the calendar year. The aggregated cost estimation above includes the average over the last 5 years	**0 EUR**

How long should I hold it and can I take money out early?

Recommended holding period: 4 years

The Recommended holding period (RHP) is 4 years but investors can request the redemption of their shares on any business day for Luxembourg banks without paying any redemption fee. The RHP has been selected on the basis of a quantitative and qualitive analysis considering the strategy, fees and the risk profile of the product.

Please note that the expected return is, anyway, not guaranteed.
